

OL SERIES

OIL-LESS AIR COMPRESSORS FOR CRITICAL APPLICATIONS

**TANK AND
BASE MOUNTED**

5-15HP

The FS-Curtis OL Series is the ideal reciprocating oil-less air compressor for applications where critical air quality is required such as food and beverage, medical, chemical processing, pharmaceutical, electronics, and more.

FEATURES AND BENEFITS

5-15HP

OIL-LESS AIR QUALITY

- 100% dry crankcase provides oil-less compressed air for critical applications with zero oil carryover
- Over-sized fan and multiple inter-stage cooling pipes to maximize heat transfer for lower discharge temperature
- Environmentally friendly with no oil vapor generated by the compressor. Eliminates oil changes and oil disposal costs
- Protects downstream equipment and reduces maintenance cost
- Decreases costs and reduces system pressure loss due to reduction of air filtration equipment in the compressed air system

RELIABILITY FOR YOUR CRITICAL APPLICATION

- Low speed pump for long-term reliability and efficiency
- 100% duty cycle for continuous operation
- Robust cast-iron crankcase, cylinder, and cylinder head for long-lasting performance

INDUSTRY LEADING PERFORMANCE

- Components have been made to the highest quality and precision to provide maximum performance in the most demanding of applications
- Designed for low noise level
- Precision manufactured valves increase air flow and maximize reliability
